## Results:

## Student Testimonials:

"I honestly didn't know much about research so I learned about pretty much everything."

"It helped with what we were working on in class and made the assignment easier and faster."

"It helped me find the right ways to search my topics so I could retrieve the best results."

"We had help every step of the way."

"It was a more valuable way to use my time."

## Benefits:

- All work is done in Bb and is **graded by faculty librarian-all you have to do is add the points for each item to your syllabus**
- Clear proof of student improvement in Information Literacy
- Works with your schedule and pacing-fully integrated into your curriculum
- More efficient use of time in computer commons spent on research
